What is Material Handling? Material Handling is the unloading and delivery of exhibit freight to the exhibitor's booth on the show floor, the storage of empty containers, the return to booth for packing, and the loading back onto the exhibitor's outbound carrier. This is an automatic service and is billed based on weight. This service, whether used completely or in are part, are billed as a package.

How to Calculate Material Handling Services The following services whether used completely or in part are offered as a package. When estimating weight, round up to the next 100 lbs. For example: 285 lbs. = 300 lbs./100 lbs. = 3 X RATE = \$ Amount or minimum charge, whichever is greater.

Standard Material Handling Rates All rates are per 100 pounds with a 200 pound minimum charge. Certified weight tickets are required on all shipments.

Blended Rates The rates stated are blended to include overtime based on the schedule at publication. Changes in schedule or if your carrier delivers your freight outside of published hours may result in additional fees. Please see Material Handling page for a complete listing of all possible charges.
